SPICY BITES

Food Ordering Webpage

Consolidated Project Report

Delicious Food. Premium Taste.

HTML + CSS | Beginner Web Development Project

Prepared from the HTML and CSS code provided for the Spicy Bites food menu webpage.

Project Overview

Project name: Spicy Bites – Food Ordering Webpage

Objective: To create a clean food menu page that displays food items, prices, ratings, promotional offers, and Order Now buttons.

Technologies used: HTML for webpage structure and CSS for styling and layout.

Design theme: Navy blue, gold, white, and a light grey background for a premium restaurant look.

Main Features

HTML and CSS Summary

HTML defines the page sections, menu cards, food images, prices, ratings, offers, buttons, and footer. CSS controls colors, spacing, borders, rounded corners, typography, and Flexbox layout.

Conclusion

Spicy Bites is a beginner-friendly static webpage demonstrating core HTML and CSS concepts. To make it functional, JavaScript and an order form or cart can be added later.
