STUDENT ACADEMIC DASHBOARD

Consolidated Project Report

HTML + CSS | Beginner Web Development Project

A student dashboard displaying profile details, semester marks, grades, and attendance.

1. Project Overview

Project name: Student Academic Dashboard

Objective: To create a webpage that presents student information, semester results, grades, and attendance percentages in a clear layout.

Technologies used: HTML for page structure and CSS for colors, spacing, tables, cards, and progress bars.

Design theme: Navy blue, teal, orange, white, and a light cream background.

2. Webpage Preview

Student Details

Semester Results

Attendance

Web Development — 85%

Python — 85%

© 2026 Student Dashboard

3. Main Features

4. HTML and CSS Summary

HTML defines the header, student detail card, semester results table, attendance section, and footer. CSS controls the typography, background colors, card design, table borders, alignment, and attendance progress bars.

5. Limitations

This is a static webpage. Student information, marks, grades, and attendance values are written directly in the HTML. The page does not connect to a database or automatically calculate results. The supplied subject marks add up to 423, matching the displayed total of 423/500.

6. Conclusion

The Student Academic Dashboard is a beginner-friendly project that demonstrates important HTML and CSS concepts, including sections, cards, tables, colors, and progress bars. JavaScript and a database could be added later to make the dashboard interactive and update student records dynamically.

Appendix A – Source Code

Source HTML and CSS provided for this project:

```
<!DOCTYPE html>
<html>
```

<head>

<title>Student Dashboard</title>

<style>

```
body {
font-family: Arial;
background: #FFF3E0;
margin: 0;
}

header {
background: #123B5D;
color: white;
padding: 20px;
text-align: center;
}

.container {
margin: 20px;
}

.card {
background: white;
padding: 20px;
border-radius: 10px;
margin-bottom: 20px;
border-left: 5px solid #F39C12;
}

h3 {
color: #123B5D;
}

table, th, td {
border: 1px solid #B0BEC5;
border-collapse: collapse;
padding: 12px;
text-align: center;
}

table {
width: 100%;
}

th {
```

```
background: #00A8A8;
color: white;
}

tr {
background: #E0F7FA;
}

.progress {
background: #CFD8DC;
border-radius: 10px;
height: 20px;
}

.bar {
background: #00A86B;
height: 20px;
border-radius: 10px;
text-align: center;
color: white;
}

footer {
background: #123B5D;
color: white;
text-align: center;
padding: 12px;
}
</style>
</head>

Feature	Description
Student details	Shows the student's name, roll number, and branch.
Semester results	Displays five subjects with marks and grades in a table.
Total marks	Shows the supplied total as 423/500.
Attendance indicators	Shows 85% attendance for Web Development and Python using progress bars.
Consistent layout	Uses cards, spacing, borders, and a header/footer to organize content.
